Dear Ms. Mason:

Subject: City of Toronto Access Request Number 2011-01840

I am replying to your access request under the *Municipal Freedom of Information and Protection of Privacy Act*.

You have requested access to a copy of the reports of the rink census tallies for all the City of Toronto outdoor artificial ice rinks, by individual rink, for the rink seasons of 2008/09, 2009/10, and 2010/11. Please also provide an explanation of how the numbers were collected and analyzed (method), and present the drop-in numbers and the permit/program numbers separately.

We asked staff of Parks, Forestry & Recreation Division to search for the requested records. This decision reflects the results of their search.

Access is granted in full to the requested reports. A copy is enclosed.

Staff of the above division has advised that leisure skating attendance is not tracked at all outdoor rinks since staff were not always available on site.

Staff further indicated that the number of participant visits for instructional skate programs and permitted attendance are entered into the Class registration system at the time of program registration or permit booking. The attendance figures for drop-in/leisure skating are tracked daily at major rinks (with boards) and entered into the Class system on a weekly basis. Attendance for Drop-in/ Leisure skating can only be tracked during supervised skating times which is after 4pm on weekdays and during supervised periods on weekends.
