## Allowing Flexibility in the Operating Budget for Municipal Skating Rinks

### Committee Decision

The Parks and Environment Committee:

- Requested the General Manager, Parks, Forestry and Recreation, to consider including "cold weather" contingency funds, including the use of corporate and private sector partners, into the 2015 Operating Budget to extend the outdoor skating and skiing season when weather permits.

### Origin

(February 26, 2014) Letter from Councillor Paula Fletcher, Ward 30, Toronto-Danforth

### Summary

This year Toronto's winter has been much colder than in previous years, and many residents have expressed a desire to continue making use of City rinks into March. Unfortunately, the City's policy is to establish a firm closing date for our rinks with no flexibility for changing weather.

Given the unpredictable nature of the weather in March during budget planning in November and December, it would seem logical to build-in flexibility in the Parks, Forestry and Recreation budget to allow the staff to make a decision based on weather conditions.
